Zulfiqar Ali

Data Analyst/Researcher

🏠 Portfolio   ⊙ Github   ✉ zulfiqar.ali01@utrgv.edu   ☎ 0092341-5883613

EXPERIENCE

MINISTRY OF INFORMATION & BROADCASTING(MOIB) | DATA ANALYST

March 2023 – Continue| Press Information Department, Islamabad

➔ Advanced social data mining techniques, disinformation detection using explainable AI(XAI)

➔ Big Data analysis with time series data

➔ Multimedia data processing, mainly including image/video analysis and processing

➔ Using Generative AI to build a predictive system on large-scale scrapped data

➔ Developed a real-time analytics dashboard using PowerBI and other JavaScript frameworks.

SEJONG UNIVERSITY | GRADUATE RESEARCH STUDENT DEPARTMENT OF OPTICAL ENGINEERING

September 2022 – February 2023| Center for Photonic Systems, Sejong University, South Korea

➔ Developing imaging techniques to study both cardiac and vascular disease.

➔ Biomedical photonic imaging

➔ Optical Image Processing and Evaluation

➔ Artificial Intelligence in micro-endoscopy imaging

➔ Constructing imaging signatures for various diseases and disorders serving as personalized biomarkers for precision diagnosis & predictive modeling.

NATIONAL CENTER OF ARTIFICIAL INTELLIGENCE | DEEP LEARNING & COMPUTER VISION ENGINEER

September 2021 – August 2022 | SmartCityLab, Karachi Pakistan

➔ 3D reconstruction, vision-based robot navigation,pose estimation

➔ Developed methodologies for the analysis, design, and control of autonomous systems

➔ Designed of robust planning and decision-making systems, which also entails developing high-dimensional deterministic or probabilistic models

➔ Developed the theoretical foundations for networked autonomous systems operating in uncertain, rapidly changing, and potentially adversarial environments.

COMSATS UNIVERSITY ISLAMABAD | GRADUATE RESEARCH ASSISTANT IN STATISTICAL DATA SCIENCE AND MACHINE LEARNING

September 2018 – August 2021 | Islamabad, Pakistan

➔ Used statistical data mining technique to collect large-scale survey dataset Hierarchical Bayesian modeling,

➔ Researched and studied children's behavior classification problems using semi-supervised learning techniques.

➔ Data preprocessing, missing value imputation on large scale data using Expected-Maximization and Bayesian algorithms.

SKILLS

PROGRAMMING

Proficient:
Python • SPSS • MATLAB

Experienced:
• LaTeX • R • SagMath • JavaScript • HTML • CSS • SQL

LIBRARIES/FRAMEWORKS

TensorFlow • PyTorch • Scikit-Learn • Pandas • opencv & MediaPipe • Dlib • Matplotlib• Numpy • Tkinter • Seaborn • Django • Fastapi • Flask • NLTk • BeautySoap • jQuery • Node.js • Bootstrap

TOOLS/PLATFORMS

Git • WordPress • Docker • Tableau • Heroku • MongoDB

EDUCATION

MASTER OF SCIENCE IN OPTICAL ENGINEERING |

August 2022 - February 2023 | Sejong University, Seoul, South Korea
Coursework in Applied Artificial Intelligence & Machine Learning

MASTER OF SCIENCE IN COMPUTATIONAL MATHEMATICS |

Sept 2018 - Sept 2020 | Comsats university Islamabad,Islamabad Coursework in Applied & computational mathematics . GPA: 3.38

BACHELOR OF SCIENCE | UNIVERSITY OF GUJRAT

Sept 2012 - June 2017 |Gujrat
Relevant coursework completed in mathematics, statistics, and scientific programming. GPA: 2.81

COURSEWORK

Computer Applications • • Information Systems • Programming Language for Mathematicians • Data Structures & Algorithms • Computational Linear Algebra • Numerical Computations • Fluid Dynamics • Probability and Statistics

LANGUAGES

Fluent
BALTI | URDU | HINDI | ENGLISH

PROJECTS

EmotionRecognition | RESEARCH WORK -CONTINUE

➔ Working on emotion recognition systems with context.

➔ Deep feature generation and classification of emotion from the face data.

➔ Kinematic apporach modeling of the human body to identify posture correctly

AI AutomationBot | PYTHON AND REACT -CONTINUE| 2023

➔ Developing and Automation Bot to monitor Social media in real-time

➔ Web Scrapping to extract large scale data for predictive modeling

➔ Real time Analytics

BioMedical Imaging | SURVEY ARTICLES -2022

➔ Deep learning models for microscopic imaging

➔ Meta-heuristic algorithms in image processing

AgriDeepNet | REACTJS AND PYTHON - 2022

➔ Machine learning based web application build using React and Flask.

➔ AgriDeepNet is used for recommending Crop and Fertilizers based on the soil features with remarkable performance of Deep neural network architecture.

➔ React JS is used to build the frontend part of the application.

➔ Flaskapi used as endpoints.

AIChatBot | PYTHON REACTJS - 2022

➔ Develop a chat bot web application using ReactJs, Python Flask, and Chatterbot.

3DImageSeg | PYTHON - 2020

➔ Semantic segmentation using deeplab.

➔ Tkinter-based GUI.

Portfolio & cv | REACTJS, BOOTSTRAP, NETLIFY,CSS - 2019

➔ Create a responsive portfolio using the latest web frameworks react,Bootrap4, Material UI.

➔ Showing skills description and skill sets with repository links. [Link].

➔ CV format designed in Latex.

RESEARCH & PUBLICATIONS

A Survey on Lungs Nodule Segmentation and Classification- In progress
A Survey on Automatic Segmentation of Biomedical retinal image Segmentation - In progress
Children's Behavior classification Problem using Machine learning Source code
Sentiment analysis Web App Using Python and React WebLink

2D-Heat diffusion modeling and simulation using MATLAB.

CERTIFICATION COURSES & WORKSHOPS

➔ Data Science Workshop on Analysing PUBG Data

➔ DevOps workshop on Reboot the Web Landscape with DevOps and Cloud

➔ Deep Learning Specialization

➔ IBM Machine Learning Professional Certificate

➔ Fundamentals of Scalable Data Science

➔ Full Stack Web Development with Angular Specialization

➔ Introduction to Programming with Python and Java Specialization

➔ Advanced Data Science with IBM Specialization

➔ Advanced Machine Learning and Signal Processing.

➔ Advanced Machine Learning Specialization

➔ Front-End Web UI Frameworks and Tools: Bootstrap 4

➔ Introduction to Programming with Python and Java Specialization

➔ Exploratory Data Analysis for Machine Learning IBM

➔ Deep Learning and Reinforcement Learning IBM

➔ Deep Learning in Computer Vision HSE University

➔ Natural Language Processing with Classification and Vector Spaces DeepLearning.AI

➔ 4th International Conference on Image Processing and Machine Vision.

EXTRACURRICULAR ACTIVITIES

➔ Gym fitness freak and badminton player at the inter-university level.

➔ Directing and advising junior graduate and undergraduate students in Thesis and Final year projects related to Machine learning, Computer vision, and Data mining.

➔ Rock climbing, reading technology blogs.
